SKILLS

Zoho Creator	Deluge	Java	HTML	CSS	JavaScript

PROJECTS

Creator App

Restaurant Reservation and Order App web link github link

Designed to simplify the reservation and ordering process for restaurants. Developed to enhance the dining experience, this app allows users to book tables, manage customer information, select menu items, and handle payments seamlessly. Additionally, the app integrates with Zoho Books for real-time invoice generation, ensuring smooth financial transactions.

Tech Stack: Zoho Creator, Zoho Books integration, Deluge

Java Console Application

Library Management System github link

Developed a Java console application for library management using the MVVM (Model-View-View-Model) design pattern to enhance code organization, maintainability, and testability.
Implemented features for adding, searching, editing, and deleting books, as well as managing user interactions for borrowing and returning books .
At the current phase, I have implemented JSON for the backend to store data.

Tech Stack: Java, Json

Front-End App

Quiz App web link github link

The Quiz Application is an interactive web-based tool designed to facilitate learning and self-assessment. Users can take quizzes and receive instant feedback on their performance .

Tech Stack: HTML, CSS, JavaScript (DOM)

Music Player App web link github link

The Music Player app is a dynamic web application designed to offer a seamless music experience.
The app allows users to play songs, manage their favorite tracks, and create custom playlists.

Tech Stack: HTML, CSS, JavaScript (DOM)

EDUCATION

2022 - 2023	**P.G.D.C.A** CGPA : 8.3	**Ayya Nadar Janaki Ammal College, Sivakasi**
2021 - 2023	**M.Sc in Mathematics** CGPA : -	**Ayya Nadar Janaki Ammal College, Sivakasi**
2018 - 2021	**B.Sc in Mathematics** CGPA : 6.9	**Ayya Nadar Janaki Ammal College, Sivakasi**

INTERNSHIP AND CERTIFICATES

02/2024– 05/2024	**Graduate Studies Intern**	**Zoho**

- Strengthened my grasp of core Java principles like object-oriented programming, data structures, algorithms, and exception handling.
- Explored more advanced topics like multi threading, concurrency, design patterns, and potential frameworks relevant to our internship project.
- Developed valuable professional skills such as teamwork, communication, and problem-solving in a collaborative environment.

```
Java  /  HTML  /  CSS  /  JavaScript
```

8/2023 – 9/2023	**Java Training Certificate**	**Besant Technologies**

- acquiring comprehensive knowledge of Java programming, including object-oriented concepts and collections.

```
Java
```
